

Tying Shoes

Dear Parents,

The school year is off to a great start! The children are learning to do so many new things. However, there is one area that I would like to have you help me in. It is helping your child learn to tie shoes. There are several children in our classroom that are struggling with this task. As you can imagine, our school days are extremely busy with all the curriculum we need to cover throughout the school year. If you have a child that has trouble tying his/her shoes, could you please work with him/her at home on this? I would greatly appreciate any support you can give me.

If you have any questions, or would like some resources on this topic, please let me know.

Sincerely,

Mr. Glenn Weber
